Présentation

Unique par ce mélange secret de porcelaine et de cristal, Harmonies s'exprime sur tous les tons et se prête aisément à toutes les compositions décoratives. Son format et ses couleurs permettent en outre de se coordonner à la gamme Mazurka. Les produits métallisés résistent aux produits d'entretien ménagers courants mais sont sensibles aux acides.

Genuine in its secret composition of porcelain and crystal, Harmonies speaks in all tones and easily adapts to all decorative compositions.

It is compatible with the Mazurka line (mat finish).

The metallized products resist to standard domestic cleaning products but are sensitive to acids.

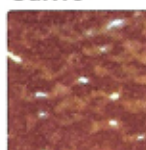

***Disponible en antidérapant**

***Slip resistant available**

Arctique
